

PROJECT OPENING RECORD

TITLE:

AUTOSPLIT DESIGN SPECIFICATION

Project No.: 6249-01

Sponsor: 0061

Budget Cat.: 03

Cost Center: 0380

Project Leader: GENISE T A

Program No.: 128

MISSION, TECHNICAL OBJECTIVES, IMPACT:

MISSION

To create a Functional Performance Specification and a Design Requirements Specification for the AutoSplit transmission product.

TECHNICAL OBJECTIVES

Using the Top-Two specifications and AutoSplit specification work completed to date (25% complete) as a starting point, complete the Functional Performance Specification and the Design Requirements Specification for the AutoSplit transmission product.

IMPACT

TCONA has identified the AutoSplit transmission concept as an integral part of their automation product strategy. However, the definition of the system and software requirements needs to be determined before commencing with the product development program.
